Such a distribution, if made on or after October 21, 1942 (see section 186 (g) of the Revenue Act of 1942 which is set forth immediately preceding § 29.504-1), will constitute a taxable dividend even if not paid out of accumulated or current earnings or profits. The term "dividend" does not include distributions

under section 115 (c), relating to distributions in liquidation, section 115 (e), relating to distributions by personal service corporations, and section 115 (f), relating to stock dividends. For treatment of any distribution made prior to October 21, 1942, which is a dividend solely by reason of the last sentence of section 115 (a), see § 29.504–3.

(B) The fourth paragraph is amended by striking out the words "following example" and inserting in lieu thereof "following examples"; by changing the word "Example," in italics to "Example (1)."; and by inserting the following new examples:

Example (2). At the beginning of the calendar year 1942 the N Corporation, a personal holding company, had no accumulated earnings or profits. During that year it made no earnings or profits but its subchapter A net income, due to the disallowance of certain deductions, was \$16,000. It distributed to shareholders on December 15, 1942, \$15,000 and on February 1, 1943, \$1,000, the latter amount being claimed as a deduction under section 504 (c) in its personal holding company return for 1942 filed on March 15, 1943. Both distributions are taxable dividends in full, since they do not exceed the subchapter A net income for 1942, the taxable year in which the distribution of \$15,000 was made and with respect to which the distribution of \$1,000 was made. It is immaterial whether the N Corporation is a personal holding company for the taxable year 1943 or whether it had any income for that year.

Example (3). In 1944 a deficiency in personal holding company tax was established against the O Corporation for the taxable year 1940 in the amount of \$34,430 based on a subchapter A net income of \$42,000. The O Corporation complied with the previsions of section 506 and in 1944 distributed to its stockholders as "defiency dividends" \$42,000. The distribution of \$42,000 is a taxable dividend since it does not exceed the subchapter A net income for 1940, the taxable year with respect to which the distribution was made. It is immaterial whether the O Corporation is a personal holding company for the taxable year 1944 or whether it had any income for that year.

(Sec. 512, Revenue Act of 1943 (Pub. Law 235, 78th Cong.), enacted Feb. 25, 1944, and sec. 62, Internal Revenue Code (53 Stat. 32; 26 U.S.C., 1940 ed., 62))

JOSEPH D. NUNAN, Jr., Commissioner of Internal Revenue.

Chapter VI-Solid Fuels Administration for War

PART 602—GENERAL ORDERS AND DIRECTIVES

[Reg. 21, Local Adjustment 1]

CONSUMER DECLARATIONS OF INVENTORY AND REQUIREMENTS IN OHIO

The Area Advisory Committee on Local Distribution for Area V in the State of Ohio has recommended, pursuant to \$ 602.417 (b) of SFAW Regulation No. 21,

that within said Area V no retail dealer be permitted to deliver, and no consumer be permitted to receive, any of the solid fuels whose distribution by retail dealers is governed by Regulation No. 21, unless the consumer has first filed a declaration of inventory and requirements with the retail dealer.

After considering this recommendation and the retail dealer distribution conditions in said Area V, I have decided that the recommended requirement with respect to consumer declarations should be put into effect in the public interest and to promote the national defense. Accordingly, It is hereby ordered:

(1) Except as provided in paragraph (2) below, during the period from June 15, 1944 to March 31, 1945, inclusive, no retail dealer may deliver and no consumer may receive any bituminous coal, western coke, packaged fuel or briquettes (as defined in § 602.411 of Regulation No. 21), unless at or prior to the time of the first delivery after June 15, 1944 the consumer shall have filed with the retail dealer from whom he expects to purchase such solid fuels a statement on a form (referred to herein as a consumer declaration) to be reproduced and furnished by the retail dealer, setting forth, among other things, the consumer's estimated annual needs for all solid fuels, the consumer's inventory, the number of rooms to be heated and the type of burning equipment. A consumer shall be required to file only one such declaration during the period June 15, 1944 to March 31, 1945, inclusive: Provided, however, That a separate consumer declaration shall be filed for each building which the consumer expects to heat in whole or in part by the use of any of the solid fuels listed above.

(2) A retail dealer may deliver and a consumer may receive any of the solid fuels listed in paragraph (1) of this local adjustment without the filing of the consumer declaration if the consumer receives, and has customarily received, any of such solid fuels in less than a 1/4-ton

(3) Statements contained in any consumer declaration are representations to the Solid Fuels Administration for War. Retail dealers shall retain the consumer declarations filed with them for and on behalf of the Solid Fuels Administration for War for a period of not less than two years. A consumer declaration or statement filed by any consumer with any retail dealer before the issuance of this local adjustment shall not be deemed to be filed pursuant to its requirements.

(4) The prescribed form of consumer declaration is set forth in Appendix A to this local adjustment which is attached hereto and made a part hereof.

For the purpose of determining the amount of solid fuels that may be delivered under Regulation No. 21 by dealers to consumers in said Area V in the State of Ohio, "consumer's annual requirements" shall mean either (i) such requirements as defined by \$602.411 (o) of Regulation No. 21, or (ii) the consumer's annual needs, as stated in Item 1 of the consumer declaration, whichever

This local adjustment applies only to deliveries and receipts of the solid fuels listed in paragraph (1) above within Area V in the State of Ohio. Area V includes the following counties in the State of Ohio: Butler, Warren, Hamilton, Clermont, Brown and Adams. The provisions of SFAW, Regulation No. 21 are to be deemed in full force and effect in Area V in the State of Ohio except to the extent that they are modified by the provisions of this local adjustment.

This local adjustment shall become ef-

fective June 15, 1944.

Issued this 7th day of June 1944. C. J. POTTER, Deputy Solid Fuels Administrator for War.

Amend paragraph (d) as follows:

(d) Reserve production. (1) (i) Each manufacturer shall reserve in his total overall production of paper or paper-board for the month of June 1944 and for each calendar month thereafter time and supplies sufficient to produce and deliver within such month the following percentage or percentages applied either to his total production or to his production of a stated grade or combination of grades as indicated below:

Туре	WPB-514 Caption	Per- cent

The War Production Board may from time to time change such percentage or percentages and apply percentages to other grades or combination of grades, by notice in writing to each manufacturer or by publication in the FEDERAL REGISTER at least ten days prior to the first of the month, to the production of which such change is applicable.

(ii) When production is reserved by applying a percentage to a stated grade or grades, the production of such grade or grades for which a manufacturer is obligated shall be determined by applying the stated percentage to the average monthly finished production of such grade or grades which the manufacturer has reported on Form WPB-514 for the most recent three calendar quarters.

When production is reserved by applying a percentage to a class or classes such as Rag Content Papers the production of such class or classes for which a manufacturer is obligated shall be determined by applying the percentage to the lesser of: (a) the monthly production of the class or classes which the manufacturer can produce subject to his authorized use of pulp under Order M-93, or (b) the average monthly production of the class or classes which the manufacturer has reported on Form WPB-514 for the most recent calendar quarter.

(iii) On or before the 15th day of any month, the War Production Board may

direct any manufacturer to employ his reserve production for any month to produce any grade of paper or paperboard which such manufacturer is qualified to produce and in any quantity not exceeding the percentage of his production designated for such month by the War Production Board less his tonnage credit current at the time against such month's reserve production under the provisions of paragraph (d) (4), Similar directions may be issued by the War Production Board after the 15th day of any month under paragraph (d) (2) (ii). The War Production Board may require the manufacturer to sell and deliver such tonnage to any person it may name. The manufacturer may refuse to so produce, sell or deliver such reserve production only for the reasons specified for the refusal of rated orders in § 944.2 of Priorities Regulation No. 1.

(2) (i) If, on or before the 15th day of any month in which production is reserved, the manufacturer does not receive from the War Production Board directions as to the disposition of all production reserved in such month, he may employ, subject to the provisions of paragraph (d) (2) (ii) below, the production for which no directions have been received, as he may desire consistent with the provisions of this and other orders of the War Production Board.

(ii) If, as of record with the War Production Board on the 15th day of any month, a manufacturer of paper or paperboard has not been credited with accepting voluntarily or by directive from the War Production Board, an order or orders for paper and paperboard to be delivered, directly or through another person to the Armed Forces (i. e., the first six procurement activities listed in paragraph (d) (5) from his production in such month in a total amount equal to 30% of his reserve production by type the manufacturer shall continue to be obligated for such month until the close of the fourth calendar day prior to the first day of the next succeeding month, for that portion of such percentage of his reserve production for which he has accepted no orders for delivery to the Armed Forces

(3) The War Production Board may establish in an appendix or appendices to this Order M-241 additional controls over the production, distribution, delivery and use of any grade or combination of grades of paper or paperboard for which 100 percent production is reserved. The reserve of such grade or combination of grades shall then be subject to direction for the entire month and continuously for so long as 100 percent of such production is reserved. When 100 percent of the production of any grade or combination of grades is reserved, the use of reporting Form WPB-3270 is not required for such grade or combination since the full control will be specified in the proper appendix.

(4) (i) Credit for directed tonnage. Should the War Production Board direct a manufacturer of paper or paperboard to accept an order to be shipped from his reserve production, the reserve production for which such manufacturer is

obligated shall be reduced (except as provided in the paragraph immediately following by the tonnage specified in such directive, and such reduction concurrently recorded to each manufacturer's credit on the records of the War Production Board.

(ii) When directed tonnage is not credited. Credit against the reserve production obligations of a manufacturer is not given for the tonnage specified in a directive when the following conditions prevail:

(a) Any one of the first six procurement activities (the Armed Forces) requests a qualified manufacturer to bid on a contract or accept a purchase order from such activity, and

(b) The manufacturer fails to bid on the contract or refuses to voluntarily accept the purchase order, and

(c) The War Production Board records on the acceptance of contracts and purchase orders by such manufacturer against his reserve production show that the acceptance of such contract or part thereof or such purchase order at the time the request was issued would not have caused him to produce more tonnage in any month than his reserve production obligations for such month, and

(d) Because of such failure to bid on the contract or refusal to accept the purchase order a directive, is issued to the manufacturer by the War Production

(iii) Any manufacturer who has accepted, directly or through another person, an order or orders for paper or paperboard to be produced for the account of any activity or use listed in paragraph (d) (5), shall immediately report such acceptance in triplicate on Form WPB-3270 and thereafter shall immediately report to the War Production Board on such form any change requested by the purchaser in any previously reported order or orders, if such change involves cancellation, or a change in quantity or in the month of manufacture. When the proper order or orders or requested changes reported on Form WPB-3270 have been correctly reported to the War Production Board, the manufacturer will be notified accordingly and credit against the manufacturer's reserve production will be recorded, subject to the provisions of paragraph (d) (2) (ii). Thereafter the manufacturer shall produce such orders according to his schedule as so reported to the War Production Board. (The reporting requirements of this paragraph have been approved by the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.)

Renumber paragraph (d) (3) to read (d) (5).

> PART 3305-PAPERBOARD [Conservation Order M-378]

PAPERBOARD

The fulfillment of requirements for the defense of the United States has created shortages in the supply of paperboard and of materials entering into the production of paperboard for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3305.1 Conservation Order M-378-(a) What this order does. This order requires that each manufacturer of paperboard set aside a reserve production, subject to direction by War Production Board, provides for credits against that reserve production, limits the amount of paperboard that may be accepted by any person, and restricts the production of paperboard.

(b) Definition. For the purpose of this order "paperboard" means the types and grades of paperboard classified under caption numbers 221,000 through 269,000, except 253,000 (pressboard),

261,100 (homogeneous wallboard), 261,-200 (hard pressed wallboard), 262,000 (insulating building board), and 241,000 through 249,000 (nonbending cardboards), in Form WPB-514, as currently revised, in sheet or roll form and whether or not lined, pasted or specially treated. It does not include containerboard as defined in Order M-290.

(c) Restrictions on production of paperboard. Unless specifically authorized by the War Production Board, no person shall produce paperboard on any paper machine (Yankee, Harper, Fourdrinier, Cylinder or Wet Machine), which did not produce paperboard in the period May 1, 1943, to July 15, 1943, inclusive.

(d) Reserve production. Each manufacturer of paper or paperboard shall reserve for the month of June, 1944, and for each succeeding month thereafter. time and supplies sufficient to produce within each month the amount of paperboard designated by the War Production Board as his reserve production. The amount so designated for June, 1944, and and for each month thereafter, until the War Production Board determines otherwise, is forty percent of the average monthly finished production of paperboard which each manufacturer reported to the War Production Board on Form WPB-514 for the most recent three calendar quarters.

(e) Direction of reserve production. On or before the 15th day of any month, the War Production Board may direct any manufacturer to employ his reserve, subject to the provisions of paragraph (f), to produce any grades of paperboard which the manufacturer is able to produce and in any quantity not exceeding the tonnage of his reserve production. The War Production Board may require a manufacturer to sell and deliver his reserve production to any person. Any order taken by a manufacturer at the direction of the War Production Board shall reduce his reserve production by

the amount of finished production represented by that order. A manufacturer may refuse to produce and deliver his reserve production in accordance with the directions of the War Production Board only for the reasons specified for the refusal of rated orders in § 944.2 of Priorities Regulation No. 1. If a manufacturer is not directed by the War Production Board as to the disposition of part or all of his reserve production on or before the 15th day of the month in which such production is reserved, he may employ the production for which no directions have been received in any way he wishes that is consistent with the provisions of this and other orders of the War Production Board.

(f) Production for federal agencies-(1) Reporting orders and changes in orders. Any manufacturer who has accepted an order for paperboard, directly or through another person, to be produced for the account of any of the agencies or uses listed in paragraph (f) (3) shall immediately report such acceptance in triplicate on Form WPB-3270, including the other information called for therein. Thereafter any change in a reported order which involves cancellation or an alteration in the quantity or month of manufacture shall be reported immediately by the manufacturer to the War Production Board on Form WPB-3270. The manufacturer shall produce such orders according to his schedule as reported to and approved by the War Production Board.

(2) Credit against reserve production. If a manufacturer accepts an order from one of the sixteen agencies listed in paragraph (f) (3) and properly reports that fact to the War Production Board on Form WPB-3270, the War Production Board will credit the tonnage in his order against any unused portion of his reserve production for the month in which the tonnage is to be produced, and will notify him.

(3) List of agencies. The agencies referred to in paragraph (f) (1) are:

United States Army.
 United States Army Map Service.
 United States Army Air Forces.

United States Navy.

The United States Marine Corps.

(Report Government Department Order number and name of converter or user).

(g) Inventory restrictions. No person shall knowingly deliver to any person, and no person shall accept delivery of, any quantity of paperboard, if the total inventory in the hands of the person accepting delivery is, or by virtue of the acceptance will become, either (a) in excess of two carloads, or (b) in excess of his reasonably anticipated requirements for the next thirty days, whichever is greater. No person shall order any quantity of paper board for delivery to him, or for his account, on any future date, if receipt thereof on that date would increase his inventory of such paperboard to more than the amount permitted in the first sentence of this paragraph.

> PART 1340-FUEL [RMPR 122, Amdt. 22]

SOLID FUELS SOLD AND DELIVERED BY DEALERS

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith has been filed with the Division of the Federal Register.\*

The following is added to Rule 3 in § 1340.254 (b) (2):

However, if the fuel priced under this Rule 3 is a fuel purchased as a substitute for fuel which the dealer cannot obtain because of limitations ordered by the Solid Fuels Administration for War or because of insufficient production, the dealer shall follow these rules in addition to this Rule 3 to determine what margin he shall add to his delivered cost of the substitute fuel:

If the dealer had sold only anthracite and buys bituminous coal as a substitute, he shall add his margin obtained on his anthracite sale most nearly like the sale he will make of bituminous coal.

If the dealer had sold low volatile bituminous coal and buys high volatile bituminous coal as a substitute, he shall add his margin obtained on his sale of low volatile bituminous coal most nearly like the sale he will make of high volatile bituminous

If the dealer had sold both high and low volatile bituminous coals, and buys high volatile bituminous coal as a substitute for the low volatile bituminous coal, he shall add his margin obtained on his sale of the similar high volatile bituminous coal most nearly like the sale he will make of the substitute high volatile bituminous coal.

In all other situations, the dealer shall add the margin on his sale of the replaced fuel most nearly like the sale he will make of the substitute fuel. In any event, he shall take into account similarity in size. quality and use, class of purchaser, quantity purchased, method of delivery (e. g., by truck, rail, etc.) and terms of delivery (e. g., delivered price, f. o. b. yard, etc.).

Before the dealer may sell substitute fuels at a price calculated under the foregoing rules relating to substitute fuels, he shall file a statement with his District O. P. A. office stating the price he has thus calculated, and:

First: The size, kind, quality and possible use or uses of the substitute fuel being priced:

Second: The name of its producer and its origin and, for bituminous coal, its price classification and group, size group, and mine index number in the minimum price schedules of the Bituminous Coal Division, as in effect at midnight August 23, 1943.

No. 115-2

Third: The per net ton cost, f. o. b. sup-

plier's shipping point;
Fourth: The actual transportation cost to the dealer's yard, dock, or other terminal facility; (a dealer eligible for compensatory adjustment under Revised Compensatory Adjustment Regulation No. 1 shall substitute for this item the lowest transportation cost he would have incurred during December 1941 in bringing the fuel to his terminal

facility);
Fifth: a proposed schedule of prices for involved, stating each class of purchaser involved, stating price variations for different quantities, methods and terms of delivery;

Sixth: the margin over delivered cost used in the calculation of the maximum price for the substitute fuel and description of the solid fuel used as the basis for pricing the substitute fuel; that is, a description of the fuel being replaced or the fuel customarily handled which is in the same general category as the substitute fuel and the margin of which is used in the calculation of the maximum price for the substitute fuel.

The dealer's maximum price for the substitute fuel shall exactly reflect any increase or decrease in his cost per net ton f. o. b. supplier's facilities or cost of transportation to his terminal facility, or both, and the dealer shall inform his District OPA office in writing of any such change in his maximum price within 10 days after the change

This amendment shall become effective June 12, 1944.

Note: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of

Maximum Price Regulation No. 392 is amended in the following respects:

- 1. Section 1 (a) (19) (ii) (a) is amended to read:
- (a) If the material costs are being determined for an old packaged drug whose maximum price was established prior to May 12, 1943 or whose maximum price as established-since that date under this regulation is the same as the maximum price of a packaged drug sold under the same name, whose maximum price was established prior to May 12. 1943, \$5.00 per proof gallon.
- 2. Section 1 (a) (19) (ii) (b) is amended to read:

[MPR 392,1 Amdt. 5]

PACKAGED DRUGS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.\*

Section 7 (a) is amended by adding the following paragraphs at the end thereof:

<sup>\*</sup>Copies may be obtained from the Office of Price Administration.

<sup>&</sup>lt;sup>1</sup>9 F.R. 1523.

<sup>18</sup> F.R. 6262, 12477, 12660; 9 F.R. 2440.

In those cases where the changed size is an intermediate size, that is, where there is a smaller as well as a larger size of an old packaged drug sold under the same name, the base price of the changed-size packaged drug may, at the manufacturer's option, be computed as follows:

(1) Subtract the base price of the next smaller size of the old packaged drug sold under the same name from the base price of the next larger size.

(2) Subtract the number of quantity units in the next smaller size from the number in the next larger size.

(3) Subtract the number of quantity units in the next smaller size from the number in the changed-size packaged drug being priced.

(4) Divide the result of step (3) by the result of step (2), multiply by the result of step (1), and add the product to the base price of the next smaller size to find the base price of the changed-size packaged drug being priced.

Example: The manufacturer of a packaged drug markets it in a 100-tablet size with a base price of \$1.00 and a 500-tablet size with a base price of \$3.50. He now wishes to determine a base price for a new size of 200 tablets.

 The difference between the base prices of the next larger and next smaller old sizes is \$3.50 minus \$1.00 or \$2.50.

(2) The difference in quantity units between the two old sizes is 500 minus 100 or 400

(3) The difference in quantity units between the changed-size and the next smaller old size is 200 minus 100 or 100.

(4) The base price of the changed-size packaged drug is 100 (step (3)) divided by 400 (step (2)) and multiplied by \$2.50 (step (1)), the result being added to \$1.00, or

Base price=\$1.00 +  $\frac{100}{400}$  × \$2.50 = \$1.00 + .625 = \$1.625.

Where the base price of the changedsize packaged drug is determined by reference both to the next larger and the next smaller sizes of the old packaged drug sold under the same name, the next larger size of the old packaged drug sold under the same name shall be used as the most comparable packaged drug in determining maximum prices by the method set forth in section 6. In such case, the manufacturer shall include with the report required by section 11 a full explanation of how he computed the base price for the changed-size packaged drug.

This amendment shall become effective June 12, 1944.

GOWEREY B. STWONDS, ET AL.

ORDER SUSPENDING PARTIAL EXEMPTION PENDING A HEARING AND DETERMINATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 5th day of June, 1944.

In the matter of Godfrey B. Simonds, Edward B. Aldrich, George F. Bliven, Herbert H. Brooks, Russell C. Harrington and Charles C. McGowan, Proposed Committee for The Rhode Island Public Service Company \$2 Cumulative Preferred Stock.

Godfrey B. Simonds, Edward B. Aldrich, George F. Bliven, Herbert H. Brooks, Russell C. Harrington and Charles C. McGowan, constituting themselves as a Committee for The Rhode Island Public Service Company \$2 Cumulative Preferred Stock, of which 495,726 shares are outstanding, have filed a declaration, and amendment thereto, pursuant to Rule U-62 promulgated under the Public Utility Holding Company Act of 1935 regarding certain solicitation material to be sent to the \$2 Cumulative Preferred Stockholders of The Rhode Island Public Service Company (RIPS), a subsidiary holding company of New England Power Association (NRPA), a registered holding company. An application has also been filed by the same parties seeking an exemption pursuant to Rule U-100 from compliance in certain respects with the requirements of paragraphs (g) (2) and (h) (1) of Rule U-62 for the Industrial Trust Company and The Blackstone Canal National Bank of Providence, of which Edward B. Aldrich and Charles C. McGowan are respectively

After appropriate notice a public hearing was duly held. Declarants have waived submission of requested findings, brief and oral argument. Having examined the record, the Commission makes the following findings.

Godfrey B. Simonds is a member of the firm of G. H. Walker & Co., investment bankers of Providence, Rhode Island. Simonds and G. H. Walker & Co. do not own any of the securities of the New England Power Association system; clients of the firm own approximately 63,-000 shares of the \$2 Cumulative Preferred Stock of RIPS.

Edward B. Aldrich is vice-president and director of Industrial Trust Company of Providence, Rhode Island. Aldrich owns 100 shares of \$2 Cumulative Preferred Stock of RIPS. Industrial Trust Company has 175 different fiduciary and agency accounts, holding approximately 13,095 shares of the \$2 Cumulative Preferred Stock of RIPS and, in addition, holds in various fiduciary and agency capacities small amounts of the securities of associate companies of RIPS. Industrial Trust Company is also co-transfer agent with the First National Bank of Boston and is dividend disburs-ing agent for the \$2 Cumulative Preferred Stock of RIPS.

George F. Bliven is a partner of Brown, Lisle & Marshal of Providence, Rhode Island, investment bankers. Bliven holds in a fiduciary capacity as executor and trustee 356 shares of the \$2 Cumulative Preferred Stock of RIPS. Clients of this firm own approximately 70,000 shares of said preferred stock.

Herbert H. Brooks, doing business as Herbert H. Brooks & Company, is in the investment banking business in Pawtucket, Rhode Island. Brooks owns 1,479 shares of the \$2 Cumulative Preferred Stock of RIPS and clients of the firm own approximately 20,000 shares of such stock.

Russell C. Harrington is a resident partner of Ernst & Ernst in Providence, Rhode Island. Neither Harrington nor his firm own any of the securities of New England Power Association system.

Charles C. McGowan is vice-president and trust officer of The Blackstone Canal National Bank of Providence, located in Providence, Rhode Island. McGowan owns no securities in the New England Power Association system. The Blackstone Canal National Bank of Providence has fiduciary and agency accounts holding an aggregate of 1,509 shares of \$2 Cumulative Preferred Stock of RIPS and small amounts of securities of associate companies of RIPS.

The declarant committee proposes to intervene or otherwise participate in the pending proceedings before the Commission involving the Plan of Simplification of the New England Power Association holding company system (File No. 54-92), filed with the Commission by NEPA and its subsidiary holding companies on March 6, 1944.

Industrial Trust Company and The Blackstone Canal National Bank of Providence have stated that full compliance with the prohibitions contained in paragraph (g) (2) of Rule U-62 with respect to buying and selling, or giving investment advice in reference to, any securities affected by the reorganization would necessitate the retirement from the committee of Aldrich and McGowan inasmuch as full compliance with the restrictions would prevent the institutions with which they are associated from performing their previously undertaken fiduciary duties. Accordingly, the Committee has requested a partial exemption for Industrial Trust Company and The Blackstone Canal National Bank of Providence from the provisions of paragraphs (g) (2) of Rule U-62 to the extent that there be no restriction upon the right of either of these two institutions to give investment advice respecting securities of RIPS and its associate companies when acting as executor, administrator, trustee, guaradian or in any other fiduciary capacity, including the administration of agency or custodian accounts with respect to which they have heretofore become obligated to give investment advice; and further, that there be no restriction upon the right of either of them to purchase or sell securities of RIPS and its associate companies in any of the above capacities, or to execute unsolicited orders to purchase or sell (but not to give investment advice) for any agency or custodian accounts with respect to which they have not heretofore become obligated, or in the exercise of their rights as holders of such securities as collateral. No request for exemption from any of the provisions of paragraph (g) (2) of Rule U-62 has been made by Aldrich and McGowan in their individual capacities or by any other members of the proposed committee or their respective firms.

We are of the opinion that, under the foregoing circumstances, it is appropriate in the public interest and the interest of investors to allow the partial exemption requested, subject to the conditions noted below.

It is therefore ordered. That the declaration, as amended, be and hereby is permitted to become effective forthwith, subject to the requirements of Rule U-24.

It is further ordered, That the application for partial exemption requested for Industrial Trust Company and The Blackstone Canal National Bank of Providence from paragraphs (g) (2) and (h) (1) of Rule U-62 be and the same hereby is granted subject, however, to the terms and conditions prescribed in Rule U-24 and to the following additional conditions:

(1) That Industrial Trust Company and The Blackstone Canal National Bank of Providence shall file a report with the Commission on or before the 10th day after the close of each calendar month from the effective date of this declaration disclosing their purchases and sales of securities of The Rhode Island Public Service Company and its associate companies within the preceding calendar month, the amount of consideration paid or received in such transactions and the capacities in which said companies were acting in connection with any such purchase or sale.

(2) If it appears to the Commission, on the basis of the information supplied pursuant to condition (1) above, that the continuance of the partial exemption herein granted is not in the public interest or the interest of investors, the Commission may institute further action herein to revoke said partial exemption by service of its Notice for Hearing and by said Notice for Hearing may suspend said partial exemption pending a hearing and determination.

By the Commission.
